Please be aware that Australian Terriers are not for the completely sedentary of heart. They CAN become couch potatoes, but do not originate as such. If children or adults play "hard" the Aussie will play harder and win. (REMEMBER, Teasing of any nature results in unhappy dogs of any breed, with unpredictable behavior developing.) Australian Terriers are particularly attracted to children, the elderly, and the health challenged. The Aussies pass their Canine Good Citizen and Therapy Training Classes with flying colors. If you have any questions, please feel free to contact us. We appreciate your interest in Aussies, and thank you for your inquiry. Dori and Alan 05122022
